Thanks Angelica.

In regards to the email search, on the DOE end the people I'd like you to search are
-the secretary for DOE
-the deputy secretary
-the chief of staff
-the associate deputy secretary
-the head of the Southwestern Power Administration
-Under Secretary for Science and Energy
-Assistant Secretary for Energy Efficiency and Renewable Energy
-Assistant Secretary for Fossil Energy
-the chair of FERC

On the Perry side:
-Rick Perry
-Brandy Marty
-Brian Newby
-Jay Kimbrough
-Ray Sullivan

Subject: Department of Energy FOIA request HQ-2017-00401-F

Dear Mr. Faturechi,

Thank you for speaking with me this afternoon. Per our phone conversation, you agree to amend your FOIA Request to:

The documents released in HQ-2017-00281-F concerning the correspondence logs from a search of the Office of the Executive Secretariat Electronic Document Online Correspondence and Concurrence System (eDOCS) for Rick Perry. The documents released in response to this request will also be released to you in response to your request. The eDOCS system tracks all formal correspondence to and from the Offices of the Secretary, Deputy Secretary, and Under Secretaries of Energy, and is where records of such correspondence are likely to be found. Then any correspondence of interest from the subject logs may be requested by submitting a new FOIA request for any specific item(s) using the eDOCS control number(s).

Also, an email search between DOE individuals you will provide and Ricky Perry or his office from Jan. 1, 2012 to the date this request is filled.

If you could please confirm, we can then continue processing your requests. Thank you and please do not hesitate to

call or email with any questions. I can be reached at 202-586-1355 or anjelica.ruda@hq.doe.gov.

Thanks,
